The CH 48 is a robust steel strapping tool and is suitable for heavy applications. The CH 48 straps without seals and can be used for both horizontal and vertical straps, making the device efficient to use. Manual tensioning and seal-less sealing of steel strip require minimal effort with this model tensioner.

Advantages

- For steel strap Superflex 19 mm
- Horizontal and vertical strapping
- Robust, for heavy applications
- Tensions up to 6,000 N
- No seals required

Options

- Steel strap dispenser
- Steel strap scissors
