TAPING

The CST 935 pallet wrapper is a turntable wrapper that can be easily integrated into an existing or new line. This fully automatic film wrapper is maintenance-friendly and uses a high pre-stretch percentage. This makes wrapping more efficient and reduces the costs of your production line.

The CST 935 can wrap up to 35 pallets per hour and can handle loads up to 2000 kg. A corner applicator can also be added to the machine for extra strength of your load.

Options:

- Increased capacity up to 2000 kg
- Pressure plate
- Pallet lift
- Integrated top sheet dispenser
- Pre-stretch up to 450%
- Corner protection applicator
- Roping system
- Anti-foil string system

Technical data:	
Rotation speed (RPM)	11
Productivity (p/h)	up to 35 pallets
Standard capacity	1200 kg
Min. pallet dimensions (mm)	800 x 600
Max. pallet dimensions (mm)	1200 x 1200
Min - max palletheight (mm)	500 - 2100
Line speed (m/min)	12-15-18
Power supply +/- 10%	400V, 50Hz, 3PH + N + PE
Power	3 kW
Air pressure	6 Bar - ~50 NI/cycle
