A steel strap dispenser is a handy tool for strapping a pallet or large load. With the help of this dispenser, a roll of steel strap can be unrolled efficiently. The QPF from Cyklop is a strap dispenser for strap with a European / single winding. The dispenser contains an extra large storage compartment for hand tools and seals.

Advantages

- Suitable for European / simple winding
- Extra-large storage compartment
- Very robust construction, stable
- Ergonomic, easy to move with one hand

Technical data

Outer diameter	655 mm
Winding	European
Strap width	10 - 32 mm
Strapping material	Steel strap
